Distance Learning!

USDLA
UNITED STATES DISTANCE LEARNING ASSOCIATION

2015 NATIONAL CONFERENCE

April 26-29, 2015

**St. Louis Union Station Hotel
St. Louis, Missouri**

Welcome Letter

Dear Conference Attendees:

Welcome to the 2015 USDLA National Conference in St Louis! They say there's never a dull moment when you work in Distance Learning and we hope that's also true when you meet with your distance learning friends — both old and new — here in the Gateway City.

I don't know about you, but I go to a lot of conferences touching on education and training. In my experience, though, this conference is unlike any other. You go to one conference and it's full of online people talking to other online learning people. Another conference may be videoconferencing folks — Woo hoo! My market segment! — talking to each other about H.323 and cool stuff like that. Then there are gatherings for higher education people where all the higher ed people interact with each other. (Get the picture?) Well, this conference is different. We're the U.S. Distance Learning Association and here you have the entire spectrum of DL professionals learning from and sharing with each other. Let me tell you, amazing things happen when you can *learn from a community that is broader than your own*. That's where you are and that's what takes place here. What an opportunity!

My hope is that at this conference you will feel like you are with family. Granted, this is an event of excellence: stellar keynotes, first-rate presenters, an amazing array of distance learning exhibitors, and the best of the best, the winners of the prestigious USDLA awards. But the most important element here is *you* — and a bunch of people who are a lot like you. So join up with old friends and meet some new ones in our opening night scavenger hunt, our annual (and spectacularly unpretentious) Bill Jackson Memorial Run, our mobile round tables, maybe a Tae Bo group, or gather in a party suite watching the Cardinals play the Phillies. Learn from one another and *enjoy*!

Many thanks to our sponsors who help make USDLA 2015 possible. Don't forget to visit our Sponsor and Exhibitor booths to learn about the latest and greatest tools used today in distance learning.

Are you a member of USDLA? If you are not, visit with a USDLA board member identified by badge ribbons. Let us share how USDLA membership can benefit both you and your organization.

You will want to mark your calendar for the following important USDLA events planned for 2015:

- National Distance Learning Week (November 9-13, 2015)
- USDLA/President's FORUM Policy Forum, Washington, DC (November 18, 2015)

Before I close, I'd like to thank each of you for attending our conference and bringing your expertise to the 2015 USDLA Conference. You, as a distance learning professional, have the vision, the knowledge, the wherewithal and the experience to help us pave our way into the future. Welcome and have a great conference!!

Elaine Shuck
USDLA President

Wednesday, April 29, 2015

6:45am – 7:45am	TAE BO EXERCISE SESSION with Daryl Diamond (Station Master Room)
7:30am – 10:00am	REGISTRATION (Midway West)
8:30am – 9:30am	CONCURRENT SESSIONS 9
9:45am – 10:45pm	CONCURRENT SESSIONS 10
11:00am – 12:15pm	CLOSING BRUNCH (Grand F) Burck Smith, <i>CEO/Founder, StraighterLine</i>

Keynote Speakers

Hal Plotkin

*Senior Open Policy Fellow
Creative Commons, USA*

Opening Keynote

Hal Plotkin is presently the Senior Open Policy Fellow at Creative Commons, USA. Creative Commons is a global non-profit public benefit corporation that supplies and promotes the use of open intellectual property licenses to promote collaborative progress in science, culture, education and business. Plotkin previously served (2009-2014) as the Senior Policy Advisor in the Office of the Under Secretary of Education (OUS), United States Department of Education. The OUS has responsibility for all U.S. federal higher education policies and programs.

Prior to his appointment to the Obama administration, Mr. Plotkin was a trustee and board president at the Foothill De Anza Community College District, based in Silicon Valley California, where he shared governance responsibility for two community colleges with a combined enrollment of approximately 45,000 students. Mr. Plotkin has been an advocate for technology mediated education reform for decades and, in particular, is a leading participant in the global movement for Open Educational Resources (OER), which he has written promise to establish a new more inclusive and socially constructive ecosystem for higher education. While on the board at Foothill De Anza, Mr. Plotkin, proposed and as board president enacted the first official governance policy in the United States that supports the use and development of OER as an official higher education institutional purpose.

Mr. Plotkin is a writer and editor by profession who has published more than 600 articles on business, science, technology and education. His publishers include *Inc.* magazine, *Forbes ASAP*, *Family Business* magazine, the *San Francisco Chronicle's SFGate.com*, and *CNBC.com*, where he served as Silicon Valley correspondent. He is also a founding editor of the American public radio program "Marketplace," which he helped create in 1987. Mr. Plotkin is a graduate of Foothill Community College in Los Altos Hills, California and San Jose State University with majors in History and Behavioral Sciences, respectively. He is the first graduate of Foothill College to ever serve on its governing board of trustees.

Burck Smith

*CEO/Founder
StraighterLine*

Closing Keynote

Burck Smith is the CEO and founder of StraighterLine. Ten years before launching StraighterLine in 2009, he co-founded SMARTHINKING, the largest online tutoring provider for schools and colleges. Burck has written chapters for three books on education policy for the American Enterprise Institute (AEI). He is a member of the American Enterprise Institute's Higher Education Working Group. Prior to starting SMARTHINKING, Burck was an independent consultant and journalist whose clients included the Gates Foundation, Microsoft, Computer Curriculum Corporation, the CEO Forum on Education and Technology, the Milken Exchange on Education and Technology, Teaching Matters Inc., Converge Magazine, Wired Magazine, Wired News, University Business, the National School Boards Association and more. In the early 1990s he wrote articles on

a variety of subjects, including creation of community telecommunication networks, electronic access to political information, telecommunications deregulation, and the ability of utilities to serve as telecommunications service providers. Burck holds a Master's Degree in Public Policy from Harvard University's John F. Kennedy School of Government and a B.A. from Williams College.

K-12**HE****CSTT****Ga****Teaching Information Literacy Through Crowd-Sourcing Content***Presented by: Jay Hall (Mid-America Christian University)*

In an environment where most of the world's knowledge is at our fingertips, the ability to evaluate content is vital in education and beyond. This interactive session explores a project designed to develop this skill through collaboratively gathering and evaluating information in an online course context.

K-12**HE****COR****INT****CSTT****Gb****A SAMR Approach to Course Design — Effectively Using Technology***Presented by: Eric Schmieder (Johnston Community College)*

The SAMR pedagogical framework of Substitution, Augmentation, Modification, and Redefinition illustrates a progression of technology integration that promotes student-centered learning to produce results previously unimaginable. In this session, we will discuss methods for faculty and instructional designers to incorporate the SAMR approach in their design of learning activities that will engage students at a higher level of learning through technology integration.

K-12**HE****CSTT****Gc****No More Grading In Your Pajamas: Video Feedback on Assignments***Presented by: Zara Risoldi Cochrane (Creighton University) and Amy Friedman Wilson (Creighton University)*

Video feedback can reduce grading time and simulate face-to-face interactions with students in an online course. This session will share our experience implementing personalized video feedback on written assignments using the Speed Grader mobile app. In addition to results — data, tips and tricks for effective video feedback will be presented.

HE**COR****INT****CSTT****Gd****The Student Perspective: A Hands-On View of Walden University's Virtual Residency Environment***Presented by: Maleka Ingram (Walden University), Juli Konopa (Walden University), and Rochelle Gilbert (Walden University)*

Walden's Academic Residency virtual delivery model consists of using a combination of web tools and technologies. Using these tools, students participate in informal learning activities, as well as socialization and networking activities. In this session, Walden's virtual residency environment will be demonstrated. Bring a laptop or tablet computer.

ALL**CSTT****Ge****Ignite the Future: Building and Delivering Competency Based Education Programs***Presented by: Rhonda Blackburn (LoudCloud Systems)*

Delivering and managing a successful competency based education program requires rethinking several aspects of course design and student management. In this session, you will experience what one institution has gone through to develop a CBE program. We will also look at the requirements to build a CBE program. Come join us!

K-12**IKD****M1****Too Young For Social Media? We Think Not!***Presented by: Julie Young (Julie Young Education) and Cecilia Lopez (CFLopez Strategic Solutions, LLC)*

In this day and age, our daily lives revolve around social media, regardless of age. Imagine this: what if there were a social media site that promoted safety, had parental supervision mechanisms, and offered an anti-cyber bullying and anti-drug youth zone? GROM Social is the answer. GROM is a free social networking site, created by kids for kids. Join us as we show and tell what GROM Social is all about, and how this could be the 'safe zone' Facebook® for our youth.

I Will Survive! Designing Online Courses for Student Success

Presented by: Lesley Casarez (Angelo State University)

With the recent increase of students enrolling in online courses, more courses are being developed. Courses involve more than simply transferring the material presented in the traditional classroom to an online format. Course design, communication and feedback must be considered in the planning stage. In this session, a forum for discussion and demonstration regarding the use of time, planning, and technological tools to help survive teaching in an online learning environment will be provided.

M1

S:R:M — Student Relationship Management — Transforming Online Enrollment

Presented by: Jon Hazelgren (Education Partners)

Many colleges are plagued today by declining enrollments, increased student service needs, and pressure to improve retention and graduation rates—all while doing more with fewer people, antiquated processes, and paper-based systems. Education Partners will present several case studies demonstrating the positive impact its game-changing SaaS solution has had on partner institutions in 2014.

K-12**IKD****M2****Igniting Change in Michigan: The New Normal in K-12 Online & Distance Learning**

Presented by: Beverly Knox-Pipes (BKP Education Solutions) and Barbara Fardell (Michigan Department of Education)

Michigan has been a recognized leader in changing the K-12 educational landscape through distance education. As the first state to require an "online experience" to graduate from High School, Michigan education leaders and the legislature have defined and refined opportunities for all students in K-12 public schools related to distance education options. Join the conversation with two of the Trail Blazers who helped to change the course of online/distance education and create the "New Normal" for all students.

K-12**HE****EDLL****M3****Project Management for Instructional Designers in Higher Education**

Presented by: Sue Bauer (University of Central Florida)

Join the University of Central Florida's Instructional Design (ID) Team for this informative session. See how we have incorporated a systematic and sensible approach to applying project management (PM) strategies to our numerous and diverse projects. We have created a modest system to track individual ID projects while incorporating various viewing options to promote team project planning, communication, and recruitment. Come learn more!

HE**MIL****TEL****DLBB****M4****Distance Learning Resources in Telehealth: Technology Making the World a Smaller Place No Matter Who, What, When or Where!**

Presented by: Janet Major (Arizona Telemedicine Program)

Distance Learning is improving the health of our entire world. Telecommunications connectivity and technology give us access to healthcare in our own hometown. Learn how this is happening in Arizona and throughout the United States. Discover the excellent resources available to foster this unique partnership in your community.

ALL**CSTT****SMR****Reducing Transactional Distance Through Instructional Design Strategies**

Presented by: Carla Lane (The Education Coalition)

Transactional distance contributes to the online learners' sense of isolation. The physical distance is overpowered by the emotional and interaction distance from instructors, peers, content, and the institution's administration. Research is contributing to new instructional design strategies that reduce transactional distance which include active mentoring /coaching by instructors. The strategies presented during this session will cover learners and peers; learners and the instructor; learner autonomy and transactional distance; instructional design and transactional distance; and relevancy of transactional distance. Please visit with us for a great discussion!

**All About USDLA!
LUNCHEON****Monday, April 27, 2015 12:30PM – 1:15PM**

An invitation for all to welcome USDLA's Newcomers. Whether a first-time-attendee, new member, or seasoned USDLA'r, don't miss this special gathering. Lunch with like-minded colleagues and learn more about USDLA. Our officers and board members would like to greet you and share about the organization we find pride in representing. Newcomer tables will be reserved near the front by regional locations (e.g. Northeastern U.S.).

Industry video veteran Michael Baker will close the session by taking a look back at the technology that has been used in the education market over the last 45 years of his career. Laced with stories and humor, his words will also take you into tomorrow with a look at where we are going. Baker has served as President and Board Member of the USDLA and will be retiring from his business career in December of 2015. He has served with USDLA for more than 23 years.

Welcome, everyone, to the USDLA family!

HE**EDLL****Ga****Using Data as a Marketing Tool To Engage Faculty In Alternative Course Delivery***Presented by: Sunay Palsole (The University of Texas at San Antonio)*

Engaging the faculty in online learning on this campus needed a different data driven strategy that was purely focused on existing students, resulting in the development of a student-based strategic need model that shows some signs of success. This session will share our instruments, data, outcomes and ongoing development.

Building Solutions to Bridging Higher Education Voids

Presented by: Sara Hughes (East Carolina University/NC State University Collaborative)

A senate mandate to "extend advanced educational opportunities to eastern North Carolina through the Gateway Technology Center" was developed. A coalition of local leaders established the center to bring university programs to a local economic workforce. An amazing collaboration between local leaders and the universities was born. Come join the interesting conversation!

FLAT Classroom: A Hybrid Learning Experience with Three Target Demographics

Presented by: Melanie Mason (University of Texas at Arlington) and Dennis Maher (University of Texas at Arlington)

A university Communication Studies course module was created to focus on an interdisciplinary Service Learning Project, which incorporated digital components (communication via Skype and Google Docs) while utilizing collaboration among university, middle-school and preparatory students for International Dot Day. Additional benefits included mentoring, recruitment, and community interaction opportunities. Visit to learn more!

Awards Reception & Banquet, Mon. April 27 6:00pm

Don't miss this exciting event where we honor this year's awards recipients. Please pick up your ticket at the Registration Desk and remember that attendance at this premier event is included in your conference registration! Visit our poster session presenters during the pre-banquet reception; meet old friends and make new ones over dinner!

Upcoming

MARK YOUR CALENDAR NOW!

National Distance Learning Week

November 9-13, 2015

The purpose of National Distance Learning Week (NDLW) is to generate greater awareness and appreciation for distance learning, including K-12, Higher Education, Corporate, Military/Government and Telehealth, while recognizing leaders and best practices in the field. USDLA will be offering free webinars and other events throughout the week!

COLLABORATE WITH A LEADER IN ONLINE LEARNING.

Tap into the expertise of Berkeley College Online® for National Distance Learning Week.

Berkeley College Online® is...

- One of the first colleges or universities worldwide to receive Quality Standards (QS) certification for excellence from the United States Distance Learning Association (USDLA)
- Ranked among the best online Bachelor's degree programs for the second consecutive year by *U.S. News & World Report*

Now, we'd like to help you develop National Distance Learning Week (NDLW) programming for your institution. Our team can assist with a variety of topics, including:

- Whom to include on your NDLW planning committee
- Examples of our programs and how we plan
- Marketing initiatives
- And much more

A pioneer in distance learning, Berkeley College Online® has offered online courses since 1998. The College's commitment to preparing students for personal and professional success dates back to 1931.

Berkeley College reserves the right to add, discontinue, or modify its programs and policies at any time. Modifications subsequent to the original publication of this information may not be reflected here. For the most up-to-date information, please visit BerkeleyCollege.edu.

We would love to help your institution develop a strong presence for NDLW. Contact Sharon Goldstein today.

Cooley

Microsoft in Education

At Microsoft, we are committed to helping students and educators throughout the world realize their full potential. We believe technology has the power to inspire and motivate students to learn, and the ability to empower teachers to prepare students.

We also recognize technology alone is not the answer and that teachers are central to helping students succeed. By working with schools and key partners in the education industry, we are driven to deliver on this belief.

From device to advice, we are committed to education and to ensuring both students and educators have the tools they need to succeed.

Arizona Telemedicine Program

Janet Major
1501 N. Campbell Avenue Room 1156
Tucson AZ 85724
520.403.0736

The Arizona Telemedicine Program is a large, multidisciplinary, university-based program that provides telemedicine services, distance learning, informatics training, and telemedicine technology assessment capabilities to communities throughout Arizona. The program has succeeded in creating partnerships among a wide variety of not-for-profit and profit healthcare organizations, and has created new interagency relationships within the state government. The Southwest Telehealth Resource Center was created through a federal grant to advance the effective use of telemedicine services throughout the southwest and is a subsidiary of ATP.

Microsoft

Cimon Cox
One Microsoft Way
